

REAL ESTATE INDUSTRY SUPPORTER AGREEMENT

What does it mean to be a Real Estate Industry Supporter?

Being an industry supporter simply means that you value and support our goal to build better rental futures for all stakeholders. We achieve this through our 'Skillsets for Successful Tenancies' course.

You are endorsing our mission to create real pathways for tenants and future tenants by equipping them with the necessary knowledge and skills to successfully maintain a tenancy. Our graduates understand the importance of working in partnership with property managers. They are competent in the fields required for successful tenancies, including communication, understanding tenant rights and responsibilities, cleaning, and budgeting.

Our industry supporters know the importance of having competent tenants, and recognise a Tenancy Skills Institute certificate as evidence that an applicant has demonstrated the skills and knowledge needed to be a great tenant. This means when a Tenancy Skills Institute graduate applies for a rental property, you understand the value of the training they have undertaken and will consider the certificate as part of the application.

You can also elect to become an actively involved supporter by attending the training as a guest speaker during a final training session. Guest speakers share their real estate management experience and perspective on what successful tenancies look like, helping to further develop our graduates' skills and tenancy outcomes. Guest speaker roles can be as a one-off or ongoing basis.

We provide our Real Estate Industry Supporters with:

- Real Estate Industry Supporter stickers for displaying in your office window/s
- Tenancy Skills Institute flyers for sharing with tenants, prospective tenants, property owners and landlords
- Free promotion of your business through various digital platforms and local media as a Real Estate Industry Supporter of the Tenancy Skills Institute
- Access to information regarding local training events
- An opportunity to meet and address Tenancy Skills Institute students personally as a guest speaker, giving future tenants an insight into property management and renting
- Support with endorsement of the Tenancy Skills Institute through a supplied Agent Media Kit, containing content ideas, quotes and digital resources and more

Join us today to create better rental outcomes!
